From the [delfosdanza.org](http://delfosdanza.org) website

*"Have you ever thought about all the fun things on the street, between the feet of*

THE BEST OF MAZATLÁN

*the passers-by, stopping at a red light, in the trash cans or next to the mice and cats that live in the corners? Maybe you don't know yet but there is a whole underground world where small children live, who like you play and have wonderful adventures.*

*These children don't go to school, they don't have a bed full of cushions and toys, many of them aren't close to their parents...do you know any? They, like you, like to create magical stories, are capable of inventing incredible games and, like you, love to feel loved. We invite you to discover the universe of this special dance created especially for children and adults.*

*These dances tell the story of three children who live in the street, where thanks to the power of their imagination, they build a fantastic world in which garbage dances around them and wraps them to withstand the cold of the night and dancing makes them forget their problems...we would love that the next time you find a child like that, give him a smile, a bit of your friendship and generosity; never ignore it and much less reject it; We are sure that after seeing this work, your look towards them will be different.*

*We also want to tell you that, for several years, we have taken free dance to various vulnerable colonies in Mazatlan through a project called Habitat, dance and awareness. Today you will see Pablo dance, an incredible 8-year-old boy who lives in one of these colonies who has been going to our classes for some time. In them he has discovered his great love for movement and how happy it makes him to dance."*

Beautiful, hopeful and FREE WITH TICKET!
